Wires	5
Wiring	5

Note:

1. Screw gland A is PG11, the suitable cable diameter should be 5-10mm.
2. There is a waterproof stopper in each screw gland, remove the waterproof stopper if used. For not used screw gland, please keep the waterproof stopper there.
3. Screw gland B and C are PG13.5, cable diameter should be 6-12mm.
4. Screw the cap tightly in case of water leakage.
